### **Community Hospital South Implementation Strategy**

2025-2027

This document describes how Community Hospital South (CHS or the hospital) plans to address the needs identified in the Community Health Needs Assessment (CHNA) published by the hospital on December 18, 2024. The CHNA report can be found at:

#### CHS\_CHNA\_Report\_2024.pdf

The Implementation Strategy describes how the hospital plans to address significant needs throughout the calendar years 2025 through 2027.

The Implementation Strategy for Community Hospital South has been prepared to comply with federal tax law requirements set forth in Internal Revenue Code Section 501(r) requiring hospital facilities owned and operated by an organization described in Code Section 501(c)(3) to conduct a CHNA every three years. Secondly, it will adopt an Implementation Strategy to meet the community health needs identified through the Community Health Needs Assessment reports for each hospital facility. The Implementation Strategy will satisfy each of the applicable requirements.

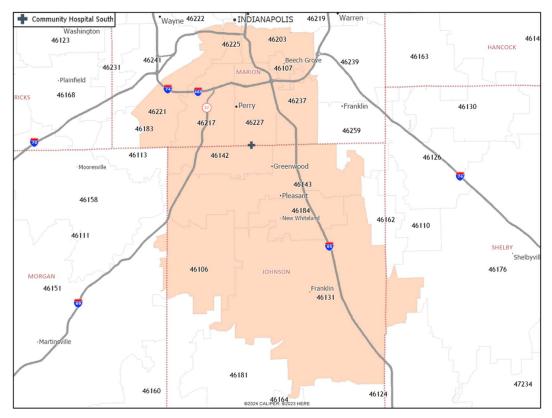

Community Hospital South reserves the right to amend this implementation strategy as circumstances warrant. Certain community health needs may warrant increased focus and resources during the next three years. Moreover, other organizations may decide to increase resources devoted to addressing one or more of the significant community health needs, or grant funds that support described initiatives may become unavailable, and as a result, the hospital may amend its strategies and focus on other identified needs.

### About Community Hospital South and the Community it Serves

Community Hospital South was originally developed as University Heights Hospital. In 1989, the hospital joined Community Health Network, which then expanded the facility and added services. Community Hospital South offers patient-centered healthcare to residents in the southern portion of the Indianapolis metropolitan area. The Community South campus continues to grow and includes access to Community Heart and Vascular, Community Cancer Center, behavioral health services, primary care and specialty-care physician practices, school-based clinics, MedCheck, a Community Surgery Center, a Community Endoscopy Center, Community Physical Therapy and Rehabilitation services, and employer health clinics.

Community Hospital South is part of Community Health Network, an integrated health delivery system based in Indianapolis. As a non-profit health system with more than 200 sites of care and affiliates throughout Central Indiana, Community Health Network's full continuum of care integrates hundreds of physicians, eight specialty and acute care hospitals, surgery centers, home care services, MedChecks, behavioral health, and employer health services.

For purposes of this CHNA, CHS's community was defined as 12 ZIP codes which are located in Marion County and Johnson County, Indiana. The community was defined by considering the geographic origins of the hospital's inpatient discharges and emergency room visits in calendar year 2023. These ZIP codes accounted for 72 percent of the hospital's inpatient discharges and 80 percent of its emergency department visits.

Summary information regarding Community Hospital South community:

- Total population of the 12 zip codes that comprise the CHS community was approximately 370,076 persons.
- Low-income census tracts can be found throughout the service area. Approximately 11% of residents in the zip codes served by CHS live in poverty.

### Selection on Significant Health Needs to Addressed

The hospital reviewed the CHNA findings and applied the following criteria to determine the most appropriate needs for the Community Hospital South region.

- The extent to which the hospital has resources and competencies to address the need
- The impact that the hospital could have on the need (i.e., the number of lives the hospital can impact)
- The frequency with which stakeholders identified the need as a significant priority
- The extent of community support for the hospital to address the issue and potential for partnerships to address the issue

By applying these criteria, the hospital determined that it will address the significant health needs identified by Y (for Yes) in the table that follows. Issues identified by N (for No) represent issues that the hospital does not plan to address during the 2025-2027 period.

Significant Health Needs Identified in the 2024 CHNA	Intend to Address (Y/N)
Access to Care	Y
Mental Health & Access to Mental Health Services	Y
Substance Use & Overdose	Y
Community Safety and Violence	Y
Infant & Child Health	Y
Poverty and Housing	N
Healthy Lifestyles, Nutrition and Assoc Conditions	Y

While Community Hospital South does not plan to specifically address Poverty and Housing in the 2025-27 implementation plan, they will continue to focus efforts on screening patients and connecting to resources. In addition, CHS will support our community partners addressing poverty and housing with in-kind support such as volunteers and donations as well as through grant opportunities through our Community Collaboration for Health Equity grant program.

Members of the Leadership Team at CHS along with Leadership throughout Community Health Network met to review the findings of the CHNA and concluded that the hospital's implementations strategy for 2025-2027 should focus on the key areas and strategies described below. The strategies listed below are not inclusive of all hospital and Network activities that impact the needs identified.

## Significant Health Need: ACCESS TO CARE

Focus Area	<b>Program/Service</b>	Strategy	Anticipated Impact
Transportation	Mabel's Ride/Uber Health	Mabel's Ride is a dedicated fleet of cars providing free transportation to and from oncology and cardiology for existing Network patients in	Reduction in cancellations and no shows for patients experiencing a transportation barrier.
		need. Mabel's Ride Uber Health provides free Uber Health rides to existing patients to and from CHNw ambulatory sites of care.	

Workforce	Behavioral	Continue to provide the	60+ dually licensed eligible
Development	Health Academy	Behavioral Health Academy academic program to yield an additional 60 clinically licensed eligible therapists annually who are eligible to become dually licensed as LCACs and are specially trained in SUD	therapists added to the workforce each year.
Access	Community ProCare @ Home	Community ProCare at Home is a house-call care service for patients who are unable to leave their home for care, are recovering from a recent hospital stay, or may have worsened symptoms of a chronic illness.	Improved health outcomes for patients served in the program. Increase new patient growth by 5% annually.
Primary Care	School-based Nursing	Provide school-based on- site nursing services within local schools. Track and monitor the number of school nurse visits and the return to class rate.	Improved access to care for school-aged children.
Health Coverage Enrollment	WellFund	Continue to provide enrollment assistance for health insurance coverage to patients, families and community members. Assist over 19,000 individuals annually.	Improved access to care for over 57,000 Central Indiana Hoosiers.
Access	Jane Pauley Partnership	Continue partnership and support of Jane Pauley Community Health Center to provide improved access to primary, pediatrics, OB/GYN, behavioral health and dental care in the community.	Improved access to care for low-income and uninsured individuals.

# Significant Health Need: MENTAL HEALTH

Focus Area	Program/Service	Strategy	Anticipated Impact
Mental Health	Clubhouse International	Clubhouse is a supportive community for individuals living with mental illness, providing social connection, structured activities, and skill development. It fosters a sense of belonging, reduces isolation, and helps members build confidence through peer support, employment opportunities, and wellness programs. Clubhouses promote long- term recovery by offering a safe, empowering, and affordable space for personal growth and stability	Improved support and stability for individuals living with mental illness.
Mental Health	School-based Behavioral Health Services	Provide on-site behavioral staff to local schools to provide education and training to educators, parents and children. Track and monitor the Session Satisfaction Score (SES) on clients served with a target of 85% satisfaction.	Improved access to behavioral health services.
Access to Mental Health Services/SUD Treatment	Peer Support	Peer support professionals in the emergency department offer support and connection to patients who present for care related to substance use disorders. They utilize their lived experience to help patients feel seen and develop motivation for and connections to all varieties of recovery pathways. When the desire for treatment is identified, they facilitate patient being connected or admitted to care.	Improved support and services for those with mental health and or substance use disorder presenting in the emergency department.

Mental	Crisis	Community Fairbanks	Community Fairbanks
Health	Intervention	Behavioral Health and	Behavioral Health and
	Team	Recovery Center will engage	Recovery Center employees
		with first responders, the	will provide at least two
		National Alliance on Mental	lectures per year for at least
		Illness (NAMI), and	two county CIT trainings.
		community resource	
		partners to provide mental	
		health and substance use	
		disorder education to those	
		attending Crisis Intervention	
		Team (CIT)	
		trainings. Currently,	
		Community Fairbanks	
		Behavioral Health and	
		Recovery Center employees	
		sit on the committees of	
		and/or provide educational	
		expertise to CIT progams in	
		Marion, Boone, Hamilton,	
		Hancock, Hendricks,

		Counties.	

## Significant Health Need: SUBSTANCE USE

Focus Area	Program/Service	Strategy	Anticipated Impact
Substance	Community	Host at least one Community	Eliminate unwanted
Use	Drug Take Back	Drug Take Back event during	pharmaceutical drugs in an
	Events	each calendar year	effort to keep unused
			medications off household
			shelves and out of the reach
			of children and teenagers.
Overdose	Naloxone	Educate community members	Decrease the stigma of SUD,
Prevention	Education	through public training and	increase the number of
		distribution of kits by attending	people in the community with
		community health fairs, service	a Naloxone kit resulting in a
		organization meetings, and	decrease in opioid overdose
		university campus events	deaths in the communities
			we serve.

Overdose Prevention	Naloxone Box	In partnership with Overdose Lifeline, continue to install Naloxone distribution boxes (i.e. NaloxBox) in targeted locations based upon state overdose data. Continue to ensure a Narcan supply in all supported NaloxBox	Increase 24/7 availability of Naloxone which will result in a decrease of opioid overdose deaths in the at-risk populations we serve in each region.
Substance Use	Peer Support	Peer Recovery Specialists at Community Fairbanks Recovery Center provide patients with a substance use disorder valuable guidance by sharing their own recovery experiences, addressing needs the patient is facing in early recovery, and improving social connectedness and identifying new social environments.	Number of patients receiving peer services and the total number of interactions (Once patient satisfaction surveys are available for all programs, will be able to report on patient satisfaction with peer services.)
Caregiver Support	Family Connections	Family Connections is a no- cost service that helps families and friends get answers to the many questions they may have when learning about – and trying to understand – substance-abuse disorders of their loved ones. It is open to anyone family member or friend seeking answers to their questions about substance use disorders and in need of support.	Change in client's Happiness Scale rating - comparing the rating at the beginning of the program to the rating at completion of the program. The scale rates the client's happiness with their life in ten areas.
SUD Prevention	Education	Community Fairbanks Recovery Center offers preventive substance use disorder education for individuals with high-risk behaviors associated with drugs and/or alcohol. Program participants learn about their relationship with alcohol, marijuana and other drugs, and increase their understanding about the consequences of addiction.	Intervention and prevention of substance use disorder for high-risk individuals.

# Significant Health Need: Maternal, Infant and Child Health

Focus Area	Program/Service	Strategy	Anticipated Impact
Maternal and Infant Health Outcomes	Perinatal Nurse Navigation	Screen 100% of patients for Social Drivers of Health and connect to resources at prenatal intake. Screen again at delivery.	Removal of barriers to a healthy pregnancy and postpartum for high risk mothers.
Maternal and Infant Health Outcomes	Perinatal Nurse Navigation	Track and monitor remote BP monitoring participation for at-risk OB population enrolled in GHP Care Companion.	60% or more babies born in the program will be born at > 37 weeks gestation and > 5.8 lbs birthweight.
Maternal/Infant Outcomes & SUD	CHOICE Program	Provide comprehensive SUD and prenatal care for pregnant women enrolled in the program.	Improved adherence to prenatal care for enrolled moms and reduction of infants born with neonatal abstinence syndrome
Maternal/Infant Health	BABE Store	Beds and Britches, Etc. (B.A.B.E.) is an incentive program that provides coupons to parents who utilize health care and social services. Coupons are redeemed at B.A.B.E. stores for new and gently used baby supplies	Serve prenatal patients from across the community with access to needed baby supplies while encouraging and incentivizing routine prenatal care.
Infant/Child Health	Indiana Diaper Bank	Serve as a collection site for Indiana Diaper Bank. Promote the need for diapers and serve as a storage hub for donated diapers in partnership with IDB.	Reduce diaper need in the community by providing reliable and accessible access to essential.
Breastfeeding	The Milk Bank, Milk Depot	In partnership with The Milk Bank, serve as a community collection site for breastmilk donation.	Improved access to breastmilk for those in need.
Infant/Child Health	Car Seat Safety	Provide free car seats for eligible patients in need. Provide car seat safety education.	Reduction of infant/child mortality.

Maternal/Infant	Spinning Babies	Sponsor on-site classes to	Promote vaginal births using
Health	Workshops	increase the number of RNs	unique techniques designed
		and providers with Spinning	to optimize fetal positioning
		Babies training.	in the womb.

# Significant Health Need: HEALTHY LIFESTYLES, NUTRITION and RELATED CONDITIONS

Focus Area	Program/Service	Strategy	Anticipated Impact
Chronic	Diabetes	Provide free online diabetes	Improved education,
Disease	Education	education program for	medication management,
Management		patients and community	exercise, nutrition and
		members. Each two-part	monitoring for people with
		series will be provided at	diabetes.
		least three times each	
		month. Track and monitor	
		program participation.	
Prevention	Faith Health	Among the faith community	Increase the incidence of early
	Initiative	nurses supported by Faith	detection of hypertension and
		Health Initiative, increase the	improve blood pressure
		percentage who offer blood	control among those already
		pressure awareness	diagnosed.
		screening events and	
		hypertension prevention and	
		management education in	
		their faith communities from	
		10% to 25%	
Prevention	Disease	Implement quarterly (REaL)	Determine strategies for
	Prevention and	data reviews with the CHNw	addressing screening gap
	Health	Disease Prevention and	and health outcomes
	Outcomes	Health Outcomes Council on	disparities among various
	Council	key network priorities	populations
		including breast cancer	
		screening, diabetes, and	
		advance care planning.	
Health Equity	Central Indiana	Continue collaboration with	Develop community wide
	Health Equity	the Central Indiana Alliance	cardiovascular/hypertension
	Collaborative	for Health Equity which	program to increase
		includes <u>Community Health</u>	awareness of blood pressure
		Network, Eskenazi Health,	control for adults and/or
		Franciscan Health	increase in # of people

	and Indiana University	engaged around their blood
	Health in partnership with	pressure health
	the <u>Indianapolis</u>	
	Recorder and Greater	
	Indianapolis Branch of the	
	NAACP.	

# Significant Health Need: COMMUNITY SAFETY and VIOLENCE

Focus Area	Program/Service	Strategy	Anticipated Impact
Safety	Community	Maintain a fully staffed	Improved safety for all
	Police	police force providing a wide	patients, visitors and
	Department	range of services to all	caregivers at Community
		Community sites of care with	Health Network sites of care.
		the purpose of keeping all	Alleviate volume of calls to
		patients, visitors and	local police departments
		caregivers safe.	therefore improving their
			capacity to support the
			needs of the communities
			we serve.
